ASPCRO, in collaboration with NPMA, has hosted workshops for EPA staff covering a broad range of pests and pest management and control areas:

- Pests include termites, bed bugs, BMSB, rodents, etc.
- Areas include structural fumigation, pyrethroids, school IPM, etc.

Next workshop is scheduled for December 13, 2017 and will focus on pyrethroids:

- Topics include treatment methods, primary pests, application equipment and calibration, service models and state regulatory programs.
