1	An investigation was conducted following an allegation of a pesticide application made without proper applicator certification. This complaint did not involve poisoning.	6/4/2020 2:38 PM
2	n/a	5/26/2020 10:35 AM
3	In 2019, the Wisconsin Department of Natural Resources responded to an incident in which the property owner used Golden Malrin mixed with Mountain Dew soda that resulted in a kill of 5 raccoons from the poison bait. The poison was not placed onto a landscape and was contained to a barn. It is suspected several cats may have been affected but did not find any carcasses or evidence of cats consuming the poison. Additionally, in March 2019, the Wisconsin Department of Natural Resources and U.S. Fish and Wildlife Services responded to cases in which pet dogs were poisoned in Northern Wisconsin. Pet dogs, coyotes, weasels, raccoons and at least one wolf were found dead. In at least one of these cases ground meat was mixed with methomyl. The Wisconsin Department of Natural Resources recovered a sample of the poison bait found on the ground in rural areas located near a spot where a pet dog was found dead. The U.S. Fish and Wildlife Services performed laboratory analysis of a deceased animal and found the pesticide active ingredient methomyl.	5/15/2020 11:48 AM
4	n/a	5/12/2020 12:06 PM
5	N/A	5/11/2020 1:52 PM

1	N/A An investigation was conducted following an allegation of a pesticide application made without proper applicator certification. This complaint did not involve poisoning.	6/4/2020 2:38 PM
2	The Wisconsin Department of Agriculture, Trade and Consumer Protection does not have investigation files related to these incidents. A FOIA request would need to be made to the Wisconsin Department of Natural Resources and U.S. Fish and Wildlife Services. Two news articles related to the cases in Northern Wisconsin are below: https://www.wbay.com/content/news/Wildlife-officials-Highly-toxic-insecticide-poisoned-animals-in-Northern-Wisconsin-563801081.html https://www.wbay.com/content/news/DNR-investigates-deaths-of-poisoned-dogs-in-Northern-Wisconsin-508806911.html	5/15/2020 11:48 AM
3	n/a	5/12/2020 12:06 PM
4	N/A - no reported incidents	5/11/2020 1:52 PM
5	case not closed	5/11/2020 10:14 AM

Q7 Are you aware of any internet content (website, videos, blogs, etc.) that discusses or recommends the use of Golden Malrin fly bait (or other methomyl containing product) to control nuisance wildlife such as raccoons or skunks? If so, please provide any URLs in the comment box below.

1	https://pestkill.org/other/raccoons/poison-and-kill-traps/ https://www.homesteadingtoday.com/threads/how-to-get-rid-of-rats-a-raccoons-fast.593342/ https://www.farmshow.com/a_article.php?aid=11037	5/15/2020 12:46 PM
2	At this time, the Wisconsin Department of Agriculture, Trade and Consumer Protection and Wisconsin Department of Natural Resources are not aware of any internet (website, videos, blogs, etc.) that discusses or recommends the use of Golden Malrin or other products containing methomyl to control nuisance wildlife such as raccoons or skunks. A listing of internet recommendations was previously submitted in 2016.	5/15/2020 11:48 AM
3	https://www.youtube.com/watch?v=zoBm5eXc6p8 https://pestkill.org/other/raccoons/poison-and-kill-traps/ Some that were recommending methomyl are now limiting their recommendations to antifreeze and rodenticides.	5/13/2020 8:30 PM
4	We have seen them in the past.	5/13/2020 9:49 AM
